

I listen to K-LOVE on 100.7 in the Utica/Rome NY area. I am very distressed to hear there is the possibility of losing this station due to LPFM possibly taking over. K-LOVE has been a part of my life and my family's for the past years and it's the only radio station I listen to in my home and car, and in fact is the only station of its kind in my area. I feel blessed to have this resource available --- it's a low-key way to witness as a Christian in my church & community. There are so many other types of stations already broadcasting in my area that I feel this one very important station should not be displaced by LPFM broadcast services. K-LOVE is too important to lose out on, and in fact needs more support in broadcasting across the country, not less!
